MATERIAL SAFETY DATA SHEET

CLIDISH POWDER

AUTO WAREWASH SUPER CONCENTRATE

IDENTIFICATION

PRODUCT NAME: CLIDISHPOWDER

OTHER NAMES: Machine dishwasher powder

RECOMMENDED USE: Machine dishwasher powder

DESCRIPTION: CLIDISHPOWDER is a super concentrated ware washing powder for use in commercial automatic dishwashers. It incorporates chlorinated ingredients to ensure the removal of stubborn stains during the wash cycle. CLIDISHPOWDER is very effective in hard water and prevents scale formation in dishwashers.

UN Number	1759
D.G Class	8
Subsidiary Risk	N/A
HAZCHEM Code	2X
Packaging Group	11
Poisons Schedule	5

PROPERTIES

APPEARANCE White powder
BOILING POINT / MELTING POINT No information available
VAPOUR PRESSURE Practically none
PERCENT VOLATILES No information available
SPECIFIC GRAVITY / BULK DENSITY No information available

FLASH POINT No known fire hazard
FLAMMABILITY LIMITS No information available
AUTOIGNITION TEMPERATURE No information available
pH (neat) 12.5
SHELF LIFE 2 Years

INGREDIENTS

Sodium Metasilicate
Other ingredients not considered hazardous by Worksafe Australia

CAS No.

6834-92-0
To

Range (w/w)

> 60%
100%

SAFETY

HEALTH EFFECTS

SWALLOWED : May cause chemical burns and nausea.

EYE : Direct contact can cause eye irritation and chemical burns

SKIN : Prolonged or repeated skin contact can cause skin irritation

INHALED : May cause irritation to mucus membranes

FIRST AID

SWALLOWED : Immediately remove product from the mouth. Do NOT induce vomiting, give a glass of water to effectively dilute the product. Seek immediate medical assistance.

EYE : Irrigate with copious quantities of water for at least 15 minutes and seek medical attention if effects persist.

SKIN : If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

INHALED : Remove from source of dust to fresh air. Seek medical assistance if effects persist.

ADVICE TO DOCTOR : Treat symptomatically

WARNING KEEP OUT OF THE REACH OF CHILDREN

CLIDISH POWDER

AUTO WAREWASH SUPER CONCENTRATE

PRECAUTIONS

EXPOSURE LIMITS: Not established

VENTILATION: Ensure adequate ventilation

PERSONAL PROTECTION: As the product can cause eye irritation, safety glasses or goggles must be worn. The use of rubber gloves is recommended.

FLAMMABILITY: The product poses no flammability hazard.

HANDLING INFORMATION

STORAGE & TRANSPORT: Dangerous goods class & subsidiary Risk 8. Store in cool, dry place well ventilated. Keep containers closed at all times and away from sunlight or heat. Keep from freezing.

SPILLS & DISPOSAL: Absorb with dry earth, sand or similar material, shovel up and dispose of in area approved by local authority by-laws. Small spillages may be safely mopped up or flushed to drain with water, if permitted. Incineration of disposed material is not recommended, as it is unlikely to adequately burn. Slippery when spilt. To avoid accidents clean up immediately. Wash affected area with water.

FIRE / EXPLOSION HAZARD: The product is non-combustible, however, the packaging material may burn to emit noxious fumes. Fire fighters should wear self-contained breathing apparatus to minimise risk of exposure to vapour or products of combustion. Extinguish fires with water spray, foam, carbon dioxide or dry chemical powder.

EXTINGUISHING MEDIA: Water spray, foam, carbon dioxide and dry chemical powder.
